Strategic Partner 73

Mr. Yang Xuyun The founder

He possesses a master degree of Mechanical Engineering of Xiangtan University and always insists on our company aim: We prefer more time to explain well the price rather than feel guilty about quality in the lifetime.

Mr. Yang is the first one to propose "TOB VR ecological service provider" to help partners achieve a win-win situation in the VR market.

Company Profile

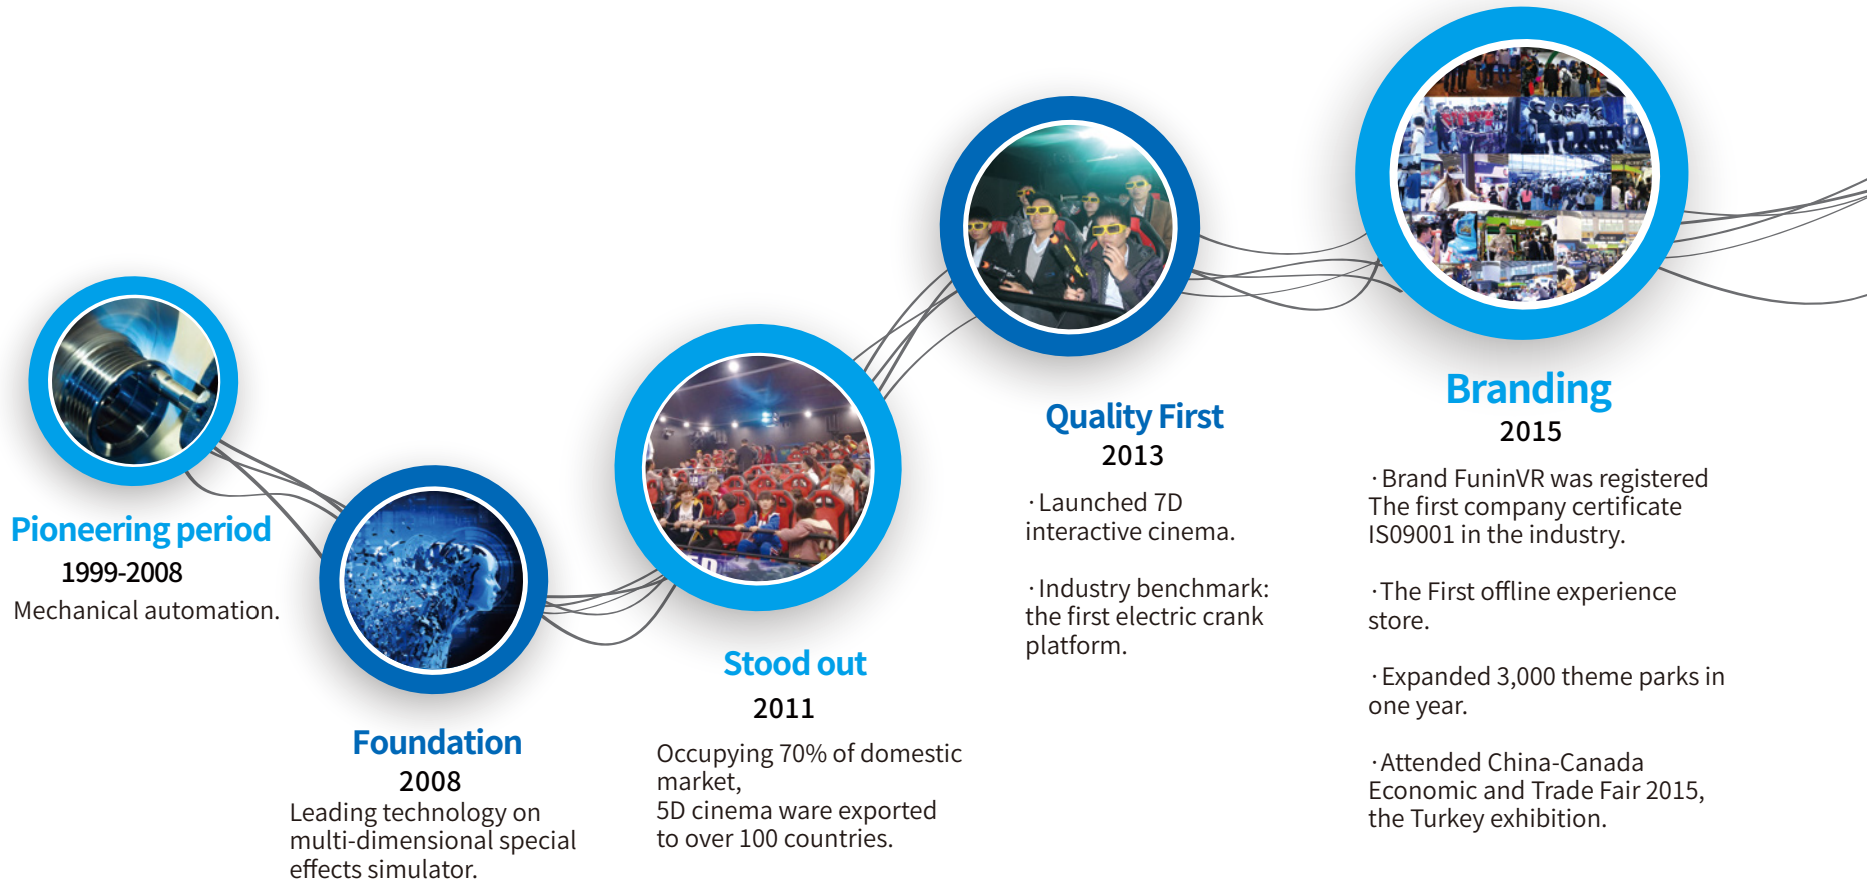

FuninVR is one of brands of Zhuoyuan company, and it is the designated equipment supplier of the CCTV film base. We are a high-tech company that integrates R & D, original content production, VR products, and VR store operations.

Strength

- *14,000 square meters ISO9001 Modern standard production center.
- *3,000 square meters research and development center.
- *Over 40 senior technicians who have served for Sany Heavy Industry and China Telecom.
- *More than 100 national intellectual property patents and certifications.
- *20 years professional production experience.
- *Has established in-depth cooperation with Intel, HTC and other 106 world-renowned VR companies.
- *First-class VR products are widely used in entertainment, children's education and science popularization.

Milestones

Extraordinary Foresight

2016

- Co-hosted VR Global Ecology Seminar reached the "TOB VR strategy".
- Cooperated with 40 leading companies.
- First to provide VR entertainment solution.
- Acquired GUOWEI Company, rewritten the future of VR.
- Establish branch in East China
- Won the title of "National High-tech Enterprise" and Guangzhou City Giant Science and Technology Innovation Award.

Continuous Innovation

2017

- The first 616 FUN Sharing Day.
- The First VR Business training.
- FuninVR brand ceremony.
- Started the VR in science popularization, won the "Asian VR Technology Innovation Brand".

Win-win Cooperation

2018

- Strategic alliance with BETOP Company and release the first mini dome cinema.
- Launch the first VR Kart multiplayer competition in National University League.

Splendid Future

2019-2020

- FuninVR innovative new products.
- Participated in the Russian International Amusement Fair.
- Dubai Trade Show, IAAPA EXPO EUROPE 2019 in Paris.
- IAAPA ATTRACTIONS EXPO 2019 in Orlando.
- Quality and brand win the market.

Funny Monkey

English Name: Funny

Chinese Name: Huan Ying

Identity: A gifted scientist at V Research Institute

Species: Monkey

Hobby: Research virtual reality technology

Features: Cute and funny, singing, dancing, joking

Personality: Kind, honest, independent, intelligent, determined

Wish: Benefiting human being with Intelligent Virtual Reality Technology

Ability: Freely shuttling between virtual world and real world through V energy, predicting danger in advance by curly hair.

Device: V-Capability Goggle Weapon

Zen: I'm going to be serious.

The most popular films(selected)

Latale

Once upon a time there was an island which was never been discovered as it surrounded by clouds. One day, one boy named Shuipi was traveling with a hot air balloon and he vaguely saw this island. His adventurous spirit was lighted then operated his balloon immediately to land on the island where a magic journey ensued...

Haunted house

Once upon a time, the people who lived in this house died suddenly overnight, the cause of death seems to be a mystery. Did you see burst eyes, blood stains spreading from the corners of the eyes to the chest, and harsh eyes? This hatred seems to bring the power to destroy everything. Under such a dangerous terror, can it reveal the mystery to the world?

Rapid forest

Nature is mysterious, there are all kinds of danger in the forests with unknown things or creature, but this is exactly the attraction of "Speedy Forest". In order to provide a better visual effect for the audience, "Speedy Forest" applies exaggerated special effects, and creates lots barriers. Driven by curiosity, heroes have gotten together to challenge the dangers in the forest. Will you bravely join us?

Escape from Dinosaur Island

On a desert island same with Jurassic park, the experiercer can get close to dinosaurs and other ancient creatures. The game aims to create a real and immersive dinosaur world. Experiencers will observe and research hundreds of dinosaurs while dinosaurs walking in the park, even interact with them. It will bring you to vivid dinosaur world.

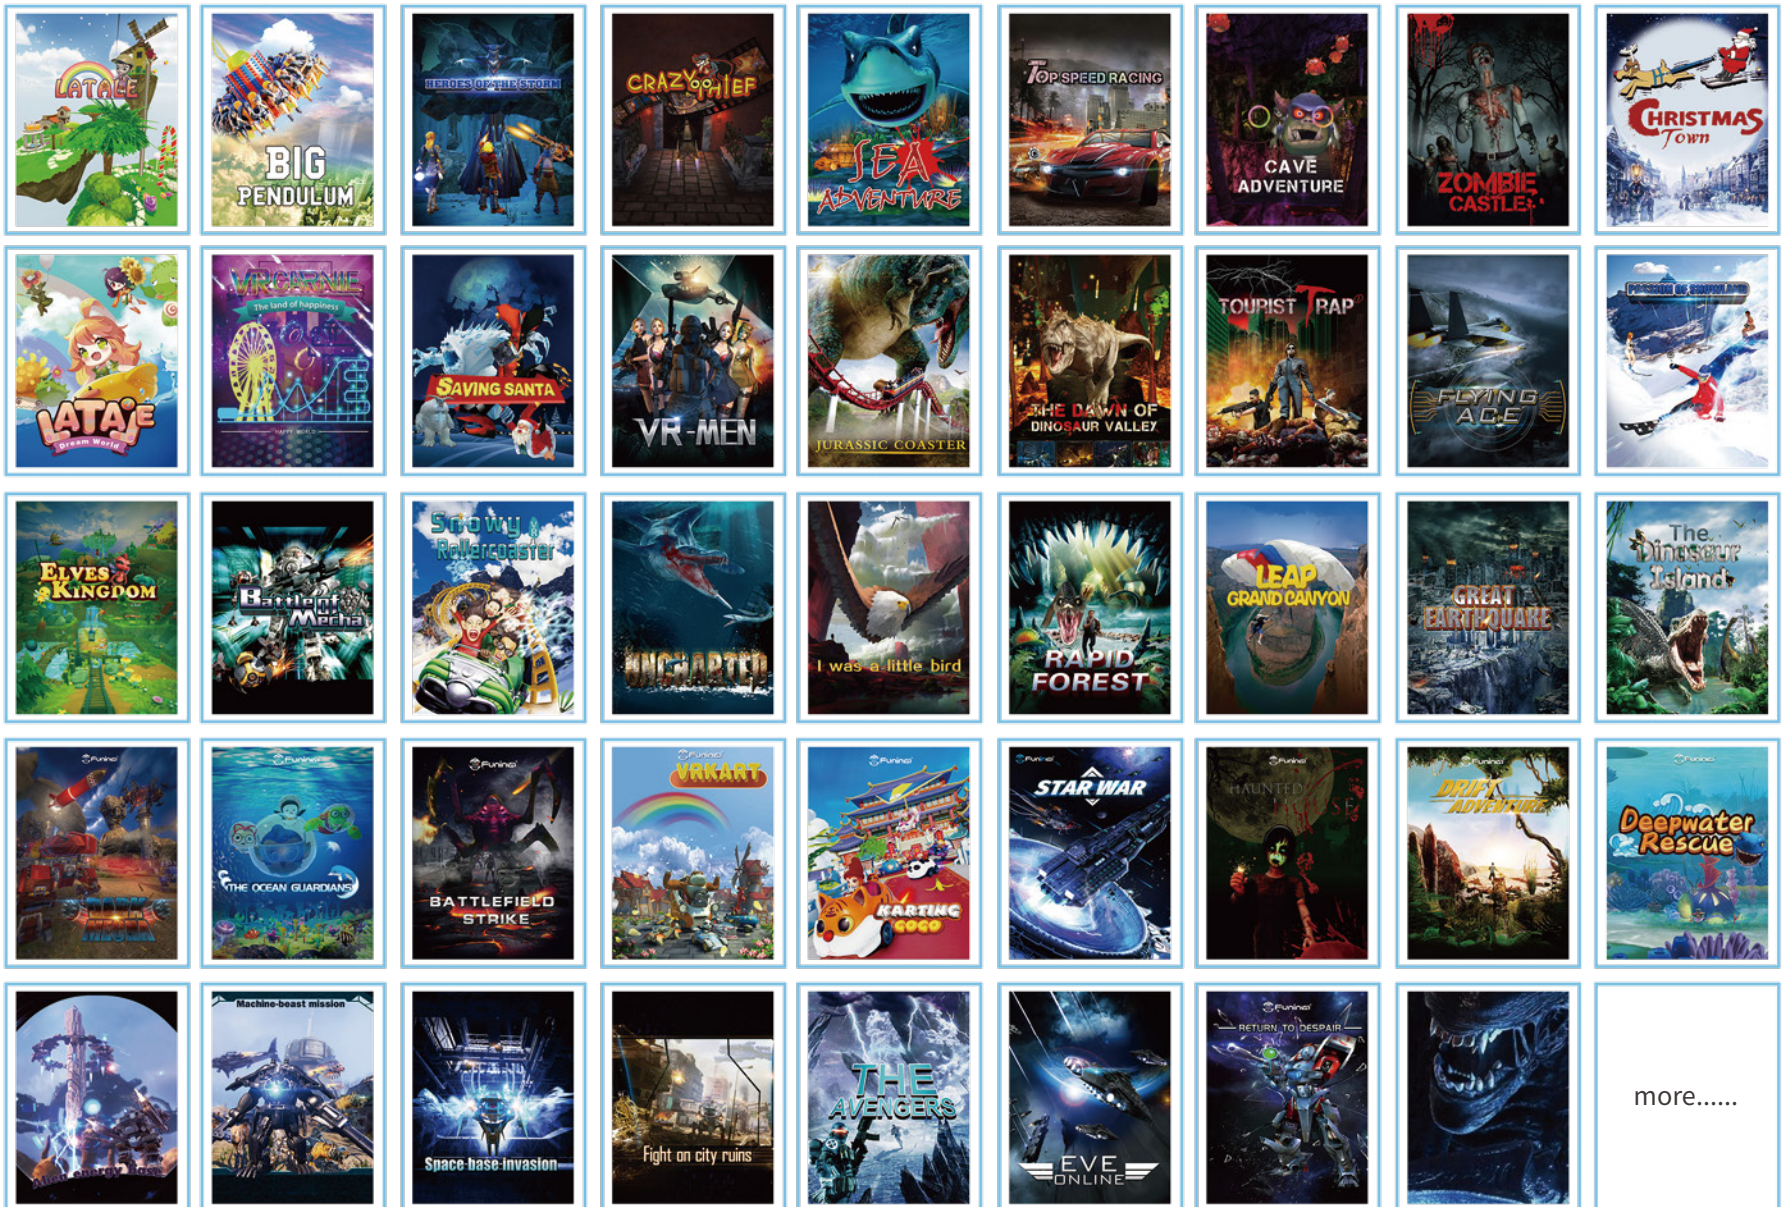

Christmas town

With exquisite Christmas decoration scenes, sleighs and sika deer are running fast on the way, bright moon is hanging in the sky with the twinkling meteor, we will take you into a fairytale Christmas town!

Ace Flying

Ace Flying is an interactive three-dimensional film with the theme of anti-terrorism team. The story talks about an organization against humanity -- Shadow which declares to rule the world and will reshuffle the worlds governments. As the strongest trio of the Peace Maintenance Team, we decide to destroy it. Let's wear the steel armor and fight for peace!
